**Table 2:** List of countries of primary affiliation of scientists who have co-authored papers on the resources and/or environment of the Benguela Current Large Marine Ecosystem (BCLME) region over the period 2000–2016. Also shown are the number of papers in which each ‘country’ participated, the number of papers that were led by scientists from each country and the number of papers that only included authors from that country. Data subdivided by study focus area: BCLME, region wide; nB, northern Benguela; sB, southern Benguela.

Country	N	N led	N single	N			N led			N single

**Table 3:** Number of papers on the resources and/or environment of the Benguela Current Large Marine Ecosystem (BCLME) region published over the period 2000–2016 that included authors from the identified countries, expressed as a percentage of all collaborative papers published by scientists from those countries. Thus, 16.7% of all papers co-authored by scientists with a South African affiliation included authors with a Namibian affiliation, whilst 68.8% of all papers that included Namibian-affiliated scientists also included South African affiliated authors. The in-country papers are expressed as a percentage of all papers co-authored by scientists from that country.

		Per cent collaboration							
		Angola	Namibia	RSA	France	Germany	Norway	UK	USA
Country	Angola	0.0	45.8	66.7	12.5	0.0	29.2	16.7	4.2
	Namibia	9.4	7.0	68.8	8.6	10.9	25.0	10.9	7.0

	Germany	0.0	8.2	22.9	7.1	44.1	5.3	4.1	10.0
	Norway	11.3	45.1	66.2	11.3	12.7	7.0	18.3	5.6
	UK	4.5	15.7	61.8	16.9	7.9	14.6	13.5	7.9
	USA	1.1	9.7	40.9	8.6	18.3	4.3	7.5	28.0

**Table 4:** Number of papers on the resources and/or environment of the BCLME region published over the period 2000–2016 that included authors from the identified countries, expressed as a percentage of all collaborative papers led by scientists from those countries. Thus, 59.8% of all South African led papers only included South African scientists, whilst 12.8% of them included Namibians.
