

HOW TO CITE:

Myers JE, Thompson ML. Statistical modelling to predict silicosis risk in deceased Southern African gold miners without medical evaluation [supplementary material]. S Afr J Sci. 2022;118(7/8), Art. #12502. <https://doi.org/10.17159/sajs.2022/12502/suppl>

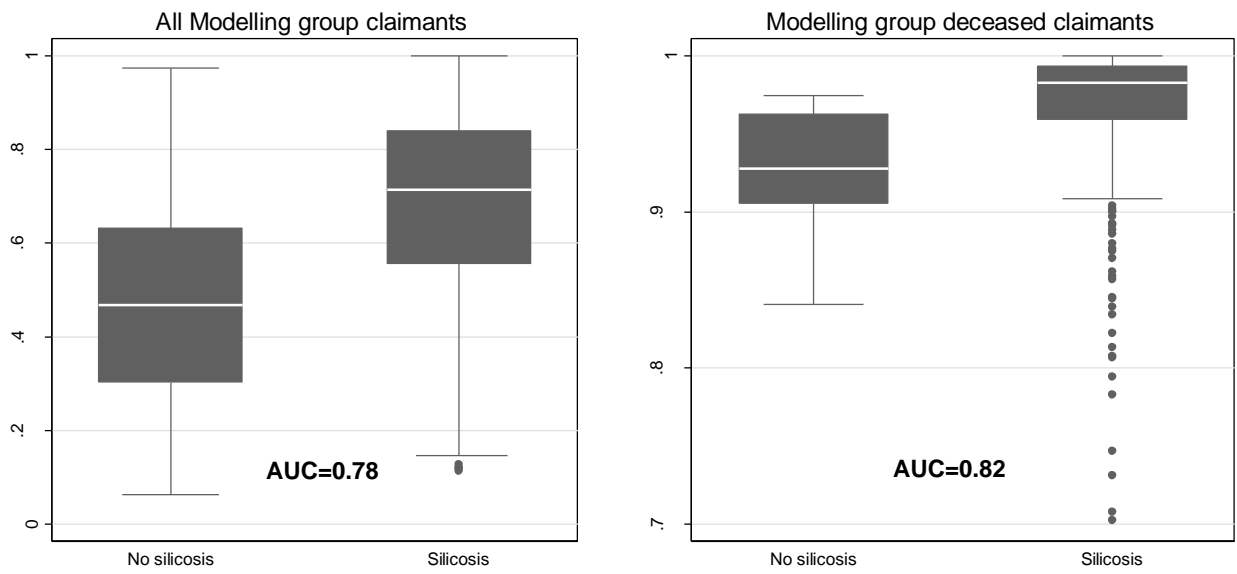

Supplementary figure 1: Receiver operating characteristic (ROC) curves for the final model.

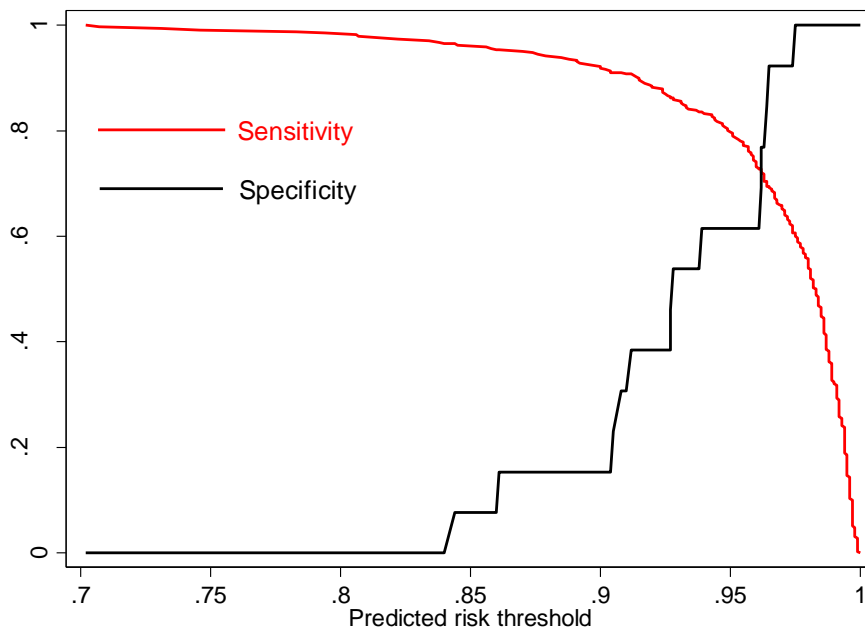

— represents perfect fit (observed=predicted)

Supplementary figure 2: Observed vs predicted risk deciles.

Supplementary figure 3: Predicted risk of silicosis by true silicosis status.

Supplementary figure 4: Estimated sensitivity and specificity by risk threshold (Modelling group, 361 deceased claimants).
